

Masterclass series

Endoscopic Heart Valve Surgery

Sponsored by Heart Research UK

Date:	Wednesday 2nd December
Venue:	Interactive, online streamed demonstration from the West Midlands Surgical Training Centre, University Hospital Coventry and Warwickshire
Course Director:	Mr Joseph Zacharias
Faculty:	Mr Hunaid Vohra Mr Abdel Abdelbar

This course is offered by national charity, Heart Research UK, to consultants and senior trainees, and places are limited. The course is free of charge.

Course objectives

A step by step guide to moving from sternotomy to endoscopic cardiac surgery.

This Masterclass is designed for individuals interested in becoming familiar with an endoscopic approach to heart valve surgery. Delegates will be expected to understand the indications and tips, tricks and pitfalls of this approach will be covered. A cadaver lab where delegates will be exposed to both 2D and 3D endoscopic valve surgery with very good interaction with faculty. We are confident that delegates will be comfortable with the theory and understand some of the practicalities of endoscopic heart valve surgery by attending this inaugural course.

The course will be in two parts; the first part will be an interactive, online streamed demonstration by the faculty on 2nd December which will be followed by the second hands-on part of the course at the West Midlands Surgical Training Centre as soon as it can be arranged in 2021.

Programme

Wednesday 2nd December 2020
